PRESS RELEASE

HHRM at the international conference Epoch 2019

Hellenic Hydrocarbon Resources Management (HHRM) participated actively at the International Exploration and Production Offshore Congress Hub (Epoch) 2019, which was held in Thessaloniki, September 16-17, and organized by BGS Group.

The conference started with Yannis Grigoriou, CEO of Hellenic Petroleum Upstream S.A., and then Yannis Bassias, President and CEO at HHRM presented the company's work and Greece's important position in the Southeastern Mediterranean.

More than 100 oil companies, specialized in technology and research, drilling, robotics, protection, security and cyber security, have contributed to EPOCH with speeches and interventions.

Head of the European Commission DG Energy presented the latest developments regarding the updated regulations that each Member State will incorporate in its national legal framework, and the decommissioning of petroleum and natural gas platforms in North Sea.

European speakers from organizations and companies with activity in Greece (Hellenic Petroleum, Repsol and Edison), Cyprus (Cyprus Hydrocarbon Company) and Italy (Hellenic-Italian Chamber), as well as Norway, Great Britain and Spain have been present, while presentations from Egypt, the United States, Algeria, Ghana and Nigeria were also interesting.

In the coming weeks, HHRM will attend the 7th Regional Development Conference in Patras and Athens Conference on European Energy Law and Policy, in Athens.
